The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17-22 and 45-76 are rejected under 35 U.S.C. 103(a) as being unpatentable over Budd for reasons of record.

Applicant has amended the claims to further define the composition of the coatings but Example III shows a solution with maltodextrin that has the dextrose equivalent of the claims. It is appreciated that the amount of each ingredient is not in the claims but no unobvious or unexpected result is seen from the specific percent of each ingredient that is in the claims. It is appreciated that lactisol and polysorbate are not mentioned but neither of these ingredients are essential to the creation of a binder coating for the product. So it is not seen that the presence or absence of lactisol or polysorbate are critical to the binder coating. Even though suppression of sweetness is a goal in Budd, no unobvious or unexpected result is seen from the preparation of a sweet product. The extent of sweetness desired in foods is an obvious matter of choice with regard to the particular extent of sweetness desired in a food.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
